SERAFINITA MODULAR

The younger sibling to Arcadia's popular Serafina Modular collection, Serafinita is specially designed for children's seating applications. From pediatric facilities to libraries, bookstores, retail outlets and more, Serafinita offers flexible, interchangeable configurations that are user-friendly and option-rich—all the while providing a safe and stylish comfort zone for waiting, playing and general mischief.

PRODUCT SPECIFICATIONS

Single and 2-seat armless models. Available as stand-alone units or in modular combinations with connecting bridges. Configurable with standard size Serafina Modular chairs. Fixed legs available in nine stylish finish options.

Connecting bridges feature radiused edge for safety and are available in four sizes: 6" wide straight, 30-degree, 45-degree and 90-degree. Bridges available in veneer, laminate, upholstered, or in combination. Fixed legs support bridges and allows them to stand alone.

Modular seating units come standard with four concealed linking connectors. Connecting bridges come standard with four fixed linking receivers. Linking connectors pivot outward from underneath chair to link with bridges. No tools or hardware required. All connecting bridges are interchangeable and reversible.
