flipside

Designed by Gemma Bernal

However you approach it, Flipside offers a comfortable and stylish place to do all things. Available with or without a backrest, its signature style is defined by wood details, a durable metal frame and seat cushions with suspension webbing for lasting comfort. For short or long stays, there's no better place to be than on the Flipside.

lineup

Designed by IDA Design

Through its diverse breadth of products, Lineup delivers endless solutions for the modern collaborative environment. From lounge groupings and modular seating configurations, to semi-private booths and casual meeting spaces, each piece in the collection thrives whether used individually or in combination, bringing a sense of purpose and productivity to its surroundings.

mayland

Designed by Gower + Woolf

Expanding on its popularity, Mayland has been enhanced with a wood frame option that elevates its presence even further while continuing to provide lasting comfort for hours on end. Together with its metal frame counterpart, the collection affords countless ways to accommodate any destination.

sunny

Designed by Rainlight

It's easy to look on the bright side with Sunny, a comprehensive collection of guest and lounge seating, occasional tables and an accompanying settee that radiate warmth and character. Die-cast aluminum connectors add dimension and an unexpected touch of sophistication to wood legs, while perfectly plump cushions on seating units and a range of fun table shapes and sizes maintain its lighthearted appeal.
