DORMIR

arcadia HEALTHCARE

DESIGNING OPTIONS. FURNISHING ANSWERS.

Contoured arm rests provide support, while optional tables keep essentials close.

DORMIR SLEEPER SOFA

Dormir rethinks the patient room sleeper sofa with an understated, more residential nuance. Purposefully built with the comforts of home in mind, it pairs soft lines and layered cushions with practical healthcare features like a moisture barrier, cleanout, and optional storage, supporting the well-being of both patients and their families while maintaining the rigorous durability and infection control standards essential to modern healthcare spaces.

Convenient power options are available for under-seat or under-table placement, allowing loved ones to recharge during long stays and overnight visits.

Generous spacing underneath provides clear access for floor cleaning, and also accommodates ancillary accessories including pull-up tables.

Two standard widths as well as custom options allow the size to be tailored to the space.

DORMIR SLEEPER SOFA

PRODUCT SPECIFICATIONS

Arm and armless models, with single arm option also offered.

Arms available fully upholstered or with Corian® arm caps.

Clean-out between back and seat for easy maintenance.

Back cushion unfolds to create the sleep surface, with moisture barrier as standard.

Metal base offered in standard and premium finishes.

Available on glides, casters, or in combination.

Accessories include optional storage tables, in addition to under-seat and under-table power.

Storage tables offered in white oak or walnut veneer, as well as Corian® selections.

Accompanying lounge seating also available.
